

The Java Handbook

[The Java Handbook 下载链接1](#)

著者:Patrick Naughton

出版者:Mcgraw-Hill Osborne Media

出版时间:1996-03-22

装帧:Paperback

isbn:9780078821998

This book gives readers a thorough grounding in Java, with a spotlight on creating executable content such as animation and continuously-updated screens for incorporation within Web pages. Readers of this cookbook-type guide will not only see lots of examples of Java applets but the'll also learn how to create them. Lots of

insiders code is given throughout.
