著者:Noel Kingsbury

出版者:Timber Press

出版时间:2013-4-9

装帧:Hardcover

isbn:9781604693706

Piet Oudolf and Noel Kingsbury are the leading international exponents of sustainable planting design. They are also nurserymen with decades worth of knowledge about plants and their habits. This book offers keen gardeners, garden designers and landscape architects a unique insight into how they combine these areas of expertise to create some of the world's most memorable parks and gardens. They then demonstrate how this effect can be achieved on a smaller scale in domestic garden

settings.

评论

启发极大。

很详细地介绍了各种植物的特性以及种植季节，设计图纸也非常清晰。美中不足的是图片分辨率没有很高，虽然是2013年的版本。
