## Book Description

Best-selling author and experienced marriage counselor Norm Wright demonstrates how "show and tell" works for couples when it comes to love. Take positive action in your marriage with these tips on how to put the romance back into your relationship--and keep it there! A husband could write down something his wife does that makes him feel loved and valued, wrap the note around a long stemmed rose, then lay it on her pillow. A wife could tape the same note to the sports section of the newspaper! Rekindle excitement, friendship and intimacy with this special collection, double-sided with one side for wives and the other for husbands.
