Your Hidden Money! shows you, in text, pictures and worksheets, how to put on a sale effectively. This is a special-edition digest on how to prepare for, organize and promote your own profitable yard sale, garage sale, estate sale, or block sale--with important tips to help you make a fistful of money.

Whether it's a dusty crate of car parts, box of out-grown children's toys or clothing, no-longer-needed tools, or just a conglomeration of things you no longer want, there is a gold mine of goods stashed in your attic or garage, and virtually all of the items that were destined for the trash could have value in a sale.

Your Hidden Money! guides you step by step through the process of planning, preparing for, advertising, setting a budget, pricing, setting out signs, and otherwise putting your best foot forward at the least expense to accomplish a successful sale.

Write in it, roll it up in your hip pocket, put it in your purse--this compact handbook should be at your fingertips from start to finish.
