What is the best thing you can do when you don't have a thing to wear? What's the secret ingredient that can instantly improve the way you look and feel? It's simple - discover your personal colors America's color guru Leatrice Eiseman will show you

how in her fun and practical new book, More Alive with Color Here Lee will introduce you to her original, easy-to-follow "Color Clock" system - the quick way to find and use the colors that reflect your personal style and transform the way you look. Based on the colors of your eyes, hair and skin and your psyche-discover your personal range of beautiful colors in Leatrice's "colortimes": Sunrise with the sparkling jewel tones of dawn, Sunlight with the soft pastels and fruit shades of noon, or Sunset with the fiery hues that mellow into dusk. Then add those natural yet practical Crossover colors to expand your wardrobe without breaking your budget. Choosing clothes, hair color, and makeup has never been easier. Leatrice will show you how to pull your wardrobe together with your personal colors - which are sexy, which are powerful for interviews and such; which accessories will magnify your personal style; and which cosmetic and hair colors will make your skin glow and flatter your natural coloring. More than any other color system, More Alive with Color will give you the freedom to use color in your wardrobe with self-confidence, add trends without losing your style, plan a wedding where you are surrounded by your best colors, organize your closet and mix colors with ease; and set out for office, party, or lunch with friends knowing you look your best.
