Brett Lee, the lead singer of heavy metal band Plunder, is enjoying a game of sex golf in his New York hotel when an explosion rocks the room. Investigating the cause, he ends up stark naked in another dimension, where he is swiftly accused of assassinating a pig by shagging it to death. And that is only the start of his problems.</p>

Ian Shirley is a freelance journalist whose feature work has appeared in The Times, The Sunday Times, Mojo, Record Collector, Classic Rock and other publications. His first science fiction novel, Shadowplay, was published in 1998.</p>
