In *Expansion and Global Interaction: 1200-1700*, David Ringrose, an established historian of Spain and its empire, explores the dynamism that appears everywhere in the world after 1200 and shows how a series of autonomous societies became interdependent on a global scale by 1700. By examining the five major arenas of conflict, ranging from Imperial China to the Aztec and Inca Empires, he illustrates how political, cultural, and economic zones of influence expanded and overlapped. The author concludes with the observation that, by 1700, Europeans were influential across the globe, but were not yet dominant in more than a few areas and, as of 1700, their power in the nineteenth century would have been hard to predict. Appropriate for anyone interested in World History.
