装帧:Paperback

isbn:9781905047901

The fullest personal encounter ever published of one couple's encounter with the paranormal, documented with photographs. Beginning with the appearance of orbs, and shedding light on other phenomena such as spirit photography, faeries, ghost lights, ball lightning, crop circles, even alien abductions, the journey John and Katie lead us through culminates with a startling new perspective: we are not alone on this planet, and non-human-intelligence interacts with us on a daily basis.
