Nowadays, not only has much Hollywood animation and game design become

informed by the Japanese manga aesthetic, but these works are increasingly done by computer applications.Indeed, Photoshop and other 3D software have become detailed and versatile enough to be an ideal tool to successfully render the nuances of the human figure and face. How To Create Virtual Beauties is a must-have volume for those working in such fields, a comprehensive guide to rendering beautiful characters through computer technology that allows not only for exquisite rendering of complex forms, but also allows for saving, editing, re-editing, animation and manipulation of the created artworks.
