装帧:Hardcovers

isbn:9783411055050

For the serious student of the German language, this is simply the best you can do (short of Duden's 6-volume, million-entry version). As a German-German dictionary, this stands head and shoulders above the best English-German German-English dictionary you can buy. Whereas the EG/GE dictionaries usually just match up German words to their English counterparts and vice versa, the Duden gives you genuine \*definitions\*. The result is that you are far less likely to use German words in inappropriate contexts: For example, thinking that because 'werfen' means 'throw', the translation of 'throw a party' is 'eine Party werfen' (it's not). Highly recommended.

评论

-----  
可以一直读下去的好字典，买了之后才发现Kindle已经自带了

-----  
相比于10厚本的große还是Universal更 " 亲民 "

-----  
跪...

-----  
留着备用ノ▽ノ
