A rebranded edition of this new dictionary (published in January 2004) specially written for students aged 14+ for use in class and at home, and based on the requirements of the National Curriculum. The content of this new dictionary is informed by the requirements of the National Curriculum for students aged 14+, at Key Stage 4 and above or at Level 5 and above in their studies. The wide range of vocabulary, including curriculum and technical terms, and the additional features such as etymologies and word histories, usage and grammar, have all been specifically requested by teachers at this level. It includes a Survival Guide to English with advice on writing and exam techniques. Although compiled with the National Curriculum for England and Wales in mind, this will be an equally valuable dictionary for students aged 14+ in Scotland and overseas.
