书评

just have seen this episode, really interesting, i especially like the part which talked about terribleness of the car produced by the communist countries such as the russia and eastern germany, all of these cars are really awfull, and after viewed this episode, when i remembered that the people`s republic treat these awfull cars as the beautiful high- tech treasures, then i will laugh again, and then i will feel sad just because russia had so many terrible adverse effect to my countries, russians used to be a...
