装帧:Paperback

isbn:9780321502667

{Book Description}

There's no better way to learn to create professional audio files for film or video than this self-paced, Apple-certified guide to Soundtrack Pro 2—the only digital audio tool

designed specifically for Final Cut Pro users. Audio producer Martin Sitter created all-new projects and completely revised this best-selling book to take advantage of the software's new streamlined interface, surround mixing features, revolutionary ability to synchronize changes between picture and sound, and new dialog track tools. After introducing readers to the Soundtrack workspace and showing them how to work with audio clips and tracks, Sitter moves quickly to the essential task of audio restoration and clean-up. Readers then learn to arrange, edit, and mix multi-track audio projects; record and edit voiceovers and narration; and experiment with advanced mixing and effects. Each chapter presents a complete lesson in an aspect of sound design or editing, with step-by-step projects for you to complete as you go. DVD with project and media files included.
