From the series you know and trust comes Blueprints in Neurology! At last the perfect complement to your core subject areas, this text gives you the high-yield facts you need and the same carefully organized format that you recognize. When used in conjunction with the other titles in the Blueprints series, you'll receive a complete

review for the USMLE Step 2&3 Exams.

Blueprints in Neurology gives you complete coverage of the most important and common topics in neurology. Contains the information needed for your Neurology clinical rotation.

- Features a chapter fully dedicated to the Neurologic Exam!
- Written by neurology residents who understand your needs
- The 48 figures, 64 tables, and key points make understanding difficult concepts easier

Study with the series that works as hard as you do!
