Once naive Amy Cunningham leaves her childhood home, there is no turning back-not even after she is involved in an accident that robs her of everything she owns. Still fighting deamons of her past, she is rescued by mysterious Jason Broughton who is touring the country on his Harley-Davidson. They both expect to separate as soon as a doctor is found to treat her wounds, but when the angry doctor sees her injuries as a crime, they are forced to flee for their lives. Unforseen dangers and circumstances keep throwing the unlikely twosome together. As their conflicting personalities surface, it leads the reader to wonder if this pair of opposite can ever become a duo.
