Are you enamored with instant messaging? Would you like to learn how to create your own messaging application? This book shows you how, by dissecting Gaimthe worlds most popular open source instant messaging application. Authored by the Gaim maintainer, Sean Egan, you are presented a thorough overview of Gaim architecture and Application Programming Interface.

Youll learn how to make the most of the popular GTK+ graphical user interface toolkit. Egan guides you through the creation and installation of plug-ins, and discusses strategies involved in supporting messaging protocols like MSN Messenger, AIM and

IRC. He also covers topics such as multi-platform support and internationalization.

作者介绍:

Sean is currently employed by Google, on the Google Talk team, where he is working to improve compatibility with Gaim and other open source messaging applications.
