From the Eiffel Tower to Notre Dame, the Place de la Concorde to Montmartre, life in Paris is charged with eleganceâfrom private homes and the varied architectural styles along its boulevards, to the quays of the Seine, winding streets, cosy bistros, and intimate restaurants. Gardens, including the Luxembourg and the Tuileries, provide an outdoor paradise in the heart of the city. Lavishly illustrated, Living in Paris includes an extensive guide to the capitol's best addresses; it is an inspiring resource for anyone who has strolled along the streets or dreamed of visiting the City of Lights.
