The long-awaited new edition of this invaluable business guide has been completely updated to incorporate new financial and legal information and legislation. As practical and comprehensive as ever, Doing Business in China has established itself as the authoritative source of business information on this rapidly developing market.

Sections on legal and fiscal frameworks, business practice and cultural differences all prepare the western business person wishing to develop links with the East. The book is written by a host of experts from all walks of business life, all of whom have vast experience of doing business with China.
