Justice N Mercy is a spectacular art book compiling color art, sketches and sequential art by Min-Woo Hyung, one of today's most talented young Korean artists. This slipcased volume uses special printing techniques and high-quality paper to present the artist's work as it was meant to be viewed. It includes never-before-seen artwork based on the artist's popular Priest graphic novel series, published by TOKYOPOP in the United States, as well as images from past and upcoming projects such as Doomslave, Hitman and Sal. Also included is an interview with Min-Woo illustrated with photographs of the artist in his workshop. In order to render Min-Woo's stunning artwork faithfully, the TOKYOPOP edition of Justice N Mercy will be printed in Korea with special color and metallic inks not available in the United States. This edition features text in three languages: English, German and Japanese.
