出版时间:1998-08-20

装帧:Paperback

isbn:9781861523686

This book tackles every aspect of leadership technique and philosophy and discusses them in a global context. *Essence of Leadership*, based on the latest research, examines a vast scope of leadership issues and looks at the best practice of leadership as exhibited by global business leaders. Consisting of 14 chapters and divided into three parts, the book will explore the transactional side of leadership, examine the nature of transformational thinking and describe and comment on high level leadership performance.
