Maps help us understand and navigate the world. For centuries, maps have become better, more refined, and more precise—there are no blind spots anymore. While

Google Maps and GPS systems have become our tools of choice for navigation, contemporary maps have evolved into platforms for cutting-edge illustration, experimental data visualization, and personal visual storytelling.

A Map of the World is a compelling collection of work by a new generation of original and sought-after designers, illustrators, and mapmakers. This work showcases specific regions, characterizes local scenes, generates moods, and tells stories beyond sheer navigation. From accurate and surprisingly detailed representations to personal, naïve, and modernistic interpretations, the featured projects from around the world range from maps and atlases inspired by classic forms to cartographic experiments and editorial illustrations.

## 评论

本書展現了地圖多種歡快的表現形式，各種主題和各種風格，大多都很活潑可愛，每張都能直接做牆面裝飾，同時也是很好的設計參考。

今天在boesner翻到，漂亮极了！捧起放下去循环了半天，回家后发现学校的图书馆有藏这本，并且gestalten出版的很多其它新书也都有！开心死了，过两天就去接它回家XD
