The Bull Hunter is a personal road map to making big money in the days ahead—retirement—level wealth that only early investors can enjoy. Influential global market analyst Dan Denning reveals what readers can unearth exceptional short- and long-term profit opportunities. He outlines numerous techniques to mine raging bull markets and extraordinary profits in emerging countries, sectors, industries, and companies that are just beginning to flourish. He also shows readers how to protect themselves from disastrous risks, get in on the stocks of hard-asset companies, profit from the fastest growing economies in the world, and more. The Bull Hunter shows readers how, with simple trades they can make with a phone call to their broker, their investment performance and profits will jump today, tomorrow, and over the next decade.
