出版者:Collins

出版时间:1996-1

装帧:Paperback

isbn:9780064451512

How can fish live in water? Why don't they drown? The answer to this fishy question and more can be found in this latest addition to the Let's-Read-and-Find-Out Science series. The book clearly explains how a fish's body is perfectly suited to life underwater, just as our bodies are suited for life on land. 1996 'Pick of the Lists' (ABA)

Best Children's Science Books 1995 (Science Books and Film)
