Eight years ago, Dr. Thomas J. Stanley swept aside the mythical magic curtain of wealth to reveal The Millionaire Next Door. America found out just who and how common the truly wealthy were in this country-and we learned the characteristics and habits that made them so. Now the author of the follow-up The Millionaire Mind focuses on one of the least understood but increasingly rich demographics: Millionaire Women Next Door, available in paperback for the first time.

"Why write another book that profiles millionaires?" Stanley asks. "The vast majority of the millionaire respondents (92 percent) in The Millionaire Next Door were men. . . . I felt that it was indeed time for successful businesswomen of the self-made variety to be heard." Readers everywhere will be fascinated by Stanley's thoroughly researched findings and conclusions. They'll come away considerably more knowledgeable and greatly inspired by women who have found the key to riches.

Millionaire Women Next Door explores the meaning of wealth and the avenues that female entrepreneurs and businesspeople have traveled. The book examines their choices, natures, working styles, and lifestyles. </p>

A woman can be intellectually smart, physically attractive, and financially INDEPENDENTLY rich, at the same time! Being a feminist doesn't mean you must be unattractive and poor. Being attractive doesn't mean you must be stupid and have to count on men to provide. Being financially independent doesn't mean you must be unattractive and boring.
