"The Graves of Tarim" narrates the movement of an old diaspora across the Indian Ocean over the past five hundred years. Ranging from Arabia to India and Southeast Asia, Engseng Ho explores the transcultural exchanges - in kinship and writing - that enabled Hadrami Yemeni descendants of the Muslim prophet Muhammad to become locals in each of the three regions, yet remain cosmopolitans with vital connections across the ocean. At home throughout the Indian Ocean, diasporic Hadramis engaged European empires in surprising ways across its breadth, beyond the usual territorial confines of colonizer and colonized. A work of both anthropology and history, this book brilliantly demonstrates how the emerging fields of world history and transcultural studies are coming together to provide groundbreaking ways of studying religion, diaspora, and empire. Ho interprets biographies, family histories, chronicles, pilgrimage manuals and religious law as the unified literary output of a diaspora that hybridizes both texts and persons within a genealogy of Prophetic descent. By using anthropological concepts to read Islamic texts in Arabic and Malay, he demonstrates the existence of a hitherto unidentified canon of diasporic literature. His supple conceptual framework and innovative use of documentary and field evidence are elegantly combined to present a vision of this vital world region beyond the histories of trade and European empire.

作者介绍:

Engseng Ho is Frederick S. Danzinger Associate Professor of Anthropology and of Social Studies at Harvard University, and Academy Scholar at the Harvard Academy for International and Area Studies.

评论

这本书得读几遍才行。作者的jargon好多，还有好些他自己发明的单词。

草草翻阅，印度洋上也门哈德拉毛人五个世纪移民史著作，又出现了争夺圣裔血统的场面。
