著者:Zoren Gold & Minori

出版者:Dgv

出版时间:2007

装帧:精装

isbn:9783899551730

Zoren Gold & Minori push the boundaries of classical photography with their spellbinding imagery.

The Tokyo-based duo's work begins with surrealistic photographs that they then

expand upon and remake by using modern composition and digital editing techniques.

Object that Dreams is a kaleidoscope of surreal scenarios that evolve from their skilful combination of photography with illustration, collage, graphic design and installation. Zoren Gold & Minori's strength lies not only in their masterful conception of fantasy worlds depicting sirens in high fashion photo shoots, but also in their creation of sensual, seductive and illusive scenery that blurs the line between fiction and reality.

Zoren Gold & Minori's clients include companies such as Sony, MTV and Warner Bros in addition to lifestyle and fashion magazines from around the world. Object that Dreams features both their commercial and personal projects and is a stunning collection of the provocative and cheerfully bizarre work that has made them a smashing success.
