With SHOWREEL.01, Daab Publishing releases a design book, dealing exclusively with the design of audiovisual media.

The subjects range from Commercials, TV Design and Film Design (Titles/Trailers), to Music Videos and Short Films. Under each of these headings, SHOWREEL.01 features - both in a book and on DVD - outstanding Audiovisual Design from the last 2 years, interviews with the people behind the work and a portrait of the agency will complete the edition. With about 50 projects a year, Reel will try to cover Audiovisual Design on a world-wide scale, addressing an audience of Agency People, Production Professionals, Designers, Filmmakers and Educational People.
