著者:Martin Davis

出版者:Dover Publications Inc.

出版时间:2005-7-29

装帧:Paperback

isbn:9780486442297

This text assumes no knowledge of mathematical logic. Beginning with a nonstandard construction of the real number system, it leads students thorough the basic topics of elementary real analysis, topological spaces, and Hilbert space. Includes nonstandard treatments of equicontinuity, nonmeasurable sets, and the existence of Haar measure. 1977 edition.
