Book Description

Windows Vista: Beyond the Manual is a comprehensive guide to installing, configuring,

exploiting, and using the richest Microsoft client operating system on the market. It guides you through the complexities of configuring and running a successful Windows Vista client computer. It also takes an in-depth look at the wealth of features and functions comprising the various flavors of the software.

Windows Vista provides a range of new capabilities and features, many of which are apparent through a totally redesigned interface, and many more that are hidden just beneath the surface. With the help of *Windows Vista: Beyond the Manual*, IT professionals and home PC enthusiasts alike will become expert users, taking full advantage of the myriad functions and features that make up this release. Noted authors Jonathan Hassell and Tony Campbell pack this book full of their own experience, plus hundreds of hints, tips, and walkthroughs, making it an indispensable companion that won't waste your time.

- * It's a one-stop shop for geeks and knowledgeable users getting to know Windows Vista.
- * The authors walk you through practically every useful function.
- * All versions of Windows Vista are covered and analyzed, and recommendations are offered.
- * The book devotes a section to next-generation Media Center.
- * A complete "Where Am I" guide is included for new Vista users.
- * Domain integration and unattended installation are also covered in detail.

作者介绍:

About the Author

Jonathan Hassell is an author, consultant, and speaker on a variety of IT topics. His published works include *RADIUS*, *Hardening Windows*, *Using Microsoft Windows Small Business Server 2003*, and *Learning Windows Server 2003*. His work appears regularly in such periodicals as *Windows IT Pro*, *PC Pro*, and *TechNet Magazine*. Jonathan also speaks worldwide on topics ranging from networking and security to Windows administration. He is currently an editor for Apress, which specializes in books for programmers and IT professionals.

Tony Campbell is a veteran Microsoft consultant (MCP) specializing in the architecture and design of secure Microsoft-centric business solutions. He also has vast experience in many other industry niches such as networking, collaboration, security, business logic, and disaster recovery and resilience. Tony has been involved with all sizes of business, from the very small to the very large, and has successfully delivered secure, reliable, robust solutions to over 150,000 clients in his 18 years in the business. Tony started his career back in the 1980s as a "green screen" mainframe programmer for the British Meteorological Office, finally arriving after a long journey in his current role as a self-employed IT consultant for over a dozen full-time customers.

Tony is a regular contributor to a number of IT journals distributed across the globe, and has been involved in the production of software manuals, user guides, white papers, hardware manuals, and training courses. His love of writing has led to

publication of some fiction by a number of small presses as well as by a few more obscure magazines.
