isbn:9781904587460

In 2004 Londei began the task of updating what had become of the shopkeepers and shops he'd photographed so long ago. His findings are included in the fascinating 'afterword' section of the book. Many had closed not long after the pictures were taken, others struggled on until the death or retirement of their owners ; almost every single one had changed beyond recognition.

作者介绍:

John Londei is an award-winning advertising and editorial photographer.
