Highly recommended. Library JournalJulie Gordon is a comer, a leading research scientist who has helped create the most exciting virtual reality program ever. Its a computer-enhanced 3-D voyage into a subjects mind that turns memories into a landscape of people, places and events from the past. When Julie suddenly learns that her twin sister is in a coma of unknown origin, Julie rushes to her. Little by little, Samantha is losing brain function, and Julie is determined to help. Shell attempt to penetrate the fractured maze of Samanthas mind with her program. What she learns from her voyage into her twins memories is that someone tried to murder her and Julie could be next...
