Book Description

The English-Vietnamese Phrase Book is specially designed to help those conversant in English acquire a quick knowledge of the Vietnamese language.

The situational conversations, phrases and sentences have been carefully selected to help overcome the language barrier one may encounter in various circumstances, such as buying groceries at the markets, visiting the physician, going to the bank or post office, taking a taxi, and so on.

Despite its compact format, it contains all the essential words and phrases that are frequently used in daily situations.
