Book Description

Early childhood educators believe that learning should begin at home, and research

has shown that children learn best through play. An early introduction to basic skills provides children with at real advantage in school.

This revised and expanded Gaint More Basic Skills Preschool Workbook is packed with activities designed by experts to offer this kind of educational foundation. Each engaging, age-appropriate activity is based on proven learning principles, and extra practice pages allow children to work at their own pace. A special Picture Dictionary inside will help children build vocabulary. An Achievement Checklist and Diploma allow you to record and celebrate your child's progress.
