Ever been overwhelmed by a closet that feels as if it's filled with all the wrong pieces? "Instant Style" is the ultimate guide to streamlining, shopping for, and maintaining your ideal wardrobe all year round. The book starts with the basics, outlining essential

clothing items for each season-winter coats, spring skirts, summer sandals, fall sweaters-then shows how to complement them with pieces that accentuate personal style. Learn which tops go with what pants, what boots look best with different skin shapes, how the right bag can change the entire look of an outfit, and how to flatter your colouring and figure. Find out when to hit the best sales, what's worth splurging on, and how to recognize quality in clothes. Finally, benefit from the book's listing of recommended stores around the country: "Instant Style" is filled with hundreds of colourful photographs of clothes and celebrities that will inspire and delight. It is the first book that gives readers everything they need to make getting dressed, no matter what the occasion and season, as enjoyable and easy as it should be.
