This book constitutes the refereed joint proceedings of four international workshops held in conjunction with the 22nd International Conference on Conceptual Modelling, ER 2003, held in Chicago, IL, USA in October 2003.

The 35 revised full papers presented together with introduction to the four workshops were carefully reviewed and selected from numerous submissions. In accordance with the respective workshops, the papers are organized in topical sections on conceptual modelling approaches for e-business, conceptual modelling quality, agent-oriented information systems, XML data and schema.

作者介绍:

目录: Conceptual Modeling Approaches for E-Business at ER 2003 (eCOMO 2003)

Preface to eCOMO 2003
Managing Evolving Business Workflows through the Capture of Descriptive Information
The Benefits of Rapid Modelling for E-business System Development
Prediction of Consumer Preference through Bayesian Classification and Generating Profile
Developing Web Applications from Conceptual Models. A Web Services Approach
A Framework for Business Rule Driven Web Service Composition
Virtual Integration of the Tile Industry (VITI)
Second International Workshop on Conceptual Modeling Quality at ER 2003 (IWCMQ 2003)
Preface to IWCMQ 2003
Multiperspective Evaluation of Reference Models - Towards a Framework
On the Acceptability of Conceptual Design Models for Web Applications
Consistency by Construction: The Case of MERODE
Defining Metrics for UML Statechart Diagrams in a Methodological Way
Visual SQL High-Quality ER-Based Query Treatment
Multidimensional Schemas Quality: Assessing and Balancing Analyzability and Simplicity
Conceptual Modeling of Accounting Information Systems:
A Comparative Study of REA and ER Diagrams
Agent-Oriented Information Systems at ER 2003 (AOIS 2003)
Preface to AOIS 2003
Bringing Multi-agent Systems into Human Organizations: Application to a Multi-agent Information System
Reconciling Physical, Communicative, and Social/Institutional Domains in Agent Oriented Information Systems - A Unified Framework
An Agent-Based Active Portal Framework
Agent-Oriented Modeling and Agent-Based Simulation
REF: A Practical Agent-Based Requirement Engineering Framework
Patterns for Motivating an Agent-Based Approach
Using Scenarios for Contextual Design in Agent-Oriented Information Systems
.....
International Workshop on XSDM at ER2003(XSDM 2003)
