TechTV's Guide to Creating Digital Video Like a Pro is the ultimate guide for anyone interested in the field of digital video. Readers learn what digital video is and how it differs from and surpasses analog video; what kind of digital equipment fits their needs

from camcorder to computer; how best to shoot their videos; what software to use and how to use it; best output options; and the future of digital video editing. The book is packed with real-world projects for the reader to practice. The CD contains actual footage from techniques used in the book, and footage from the book's projects for readers to see what their finished products should resemble.
