It is 1540 and the hottest summer of the sixteenth century. Matthew Shardlake,

believing himself out of favour with Thomas Cromwell, is busy trying to maintain his legal practice and keep a low profile. But, his involvement with a murder case, defending a girl accused of brutally murdering her young cousin, brings him once again into contact with the king's chief minister - and a new assignment ...The secret of Greek Fire, the legendary substance with which the Byzantines destroyed the Arab navies, has been lost for centuries. Now, an official of the Court of Augmentations has discovered the formula in the library of a dissolved London monastery. When Shardlake is sent to recover it, he finds the official and his alchemist brother brutally murdered - the formula has disappeared. Now, Shardlake must follow the trail of Greek Fire across Tudor London, while trying at the same time to prove his young client's innocence. But, very soon he discovers nothing is as it seems ...
