Sir Arthur Conan Doyle, the legendary author of the Sherlock Holmes novels, didn't just dwell in the imaginary world of fictional crimes. He also got involved with two real-life criminal cases-and wrote about them.

Now, "The Case of George Ernest Thompson Edalji" and "The Case of Oscar Slater" are presented in their entirety as originally written, and collected here for the first time in one volume, for true crime readers, legal-thriller fans, history buffs-and all the Sherlock Holmes fans who want to know more about the mind behind their favorite literary detective.
