## Book Description

Invite your students to have fun with their writing! Writing & Thinking Skills: Fun with Writing contains a wealth of challenging, stimulating, and necessary writing and thinking skills and strategies for middle-grade students. The wide variety of materials will help both parents and teachers as they work with children of all ability levels.

This book emphasizes creative writing activities that require high-level thinking. Students will practice writing and thinking skills essential to effective writing using their imaginations and creativity in these fun and engaging activities!

Sections include a review of punctuation and sentences, as well as activities for rhyme and poetry, similes, metaphors, jokes, tall tales, story writing, letter writing, and more! You'll find reproducible practice pages, extension ideas, and student study pages with

essential information that your students can use in their writing.

This book will help raise students' test scores in a variety of areas, and help them prepare for standardized achievement tests. Use these wonderful, fun writing activities to help your students gain a love of writing and develop the higher-order thinking skills they need to become successful writers!
