In 1832, Susanna Moodie immigrated to Canada from Britain with her husband and daughter in search of comfort and independence in the unsettled Canadian backwoods. She went on to chronicle her experiences in this personal, accurate, and often humorous account. This Norton Critical Edition of *Roughing It in the Bush* provides everything that a student needs to analyze and enjoy Moodie's tale.

A thorough "Backgrounds" section includes images, a map, contemporary reviews of *Roughing It*, and letters written by Moodie to her husband during the winter of 1839, at which time he was serving a military appointment in the Victoria District and she and her children were facing life-threatening illnesses.

"Criticism" contains ten essays by leading Canadian scholars and authors, among them Margaret Atwood, Carl Ballstadt, D. M. R. Bentley, Susan Glickman, and Michael Peterman.

A Chronology of Susanna Moodie's life and a Selected Bibliography are also included.
