Humphrey Bogart is a legend and an icon whose magic has not dissipated with time.

The wounded tough guy image Bogart molded over the decades of his career still resonates. There is a truth to this image; audiences sense that the world-weariness, the angst, and the vulnerability, which made him an icon of noir as well, were rooted somehow in reality. Even if the spectator knew nothing about his personal life, they believed and still do believe in his performances in cinema classics like Casablanca, The Maltese Falcon, High Sierra, The Big Sleep, In a Lonely Place, and The African Queen. The Movie Icon series: People talk about Hollywood glamour, about studios that had more stars than there are in heaven, about actors who weren't actors but were icons. Other people talk about these things, Taschen shows you. Movie Icons is a series of photo books that feature the most famous personalities in the history of cinema. These 192-page books are visual biographies of the stars. For each title, series editor Paul Duncan has painstakingly selected approximately 150 high quality enigmatic and sumptuous portraits, colorful posters and lobby cards, rare film stills, and previously unpublished candid photos showing the stars as they really are. These images are accompanied by concise introductory essays by leading film writers; each book also includes a chronology, a filmography, and a bibliography, and is peppered with apposite quotes from the movies and from life.
