完全颠覆我的预期，好看得超乎想象！Lewis的想象力与比喻在这本书里发挥到了极致，看完这书感觉就像去天堂旅游了一把！

Not an easy read. But it's definitely worth the efforts.

I am two thirds done with this book. I have to say I wasn't that into this book. Not that there is anything wrong with this book, it is great. I just haven't had enough troubles in believing miracles from God, God had me that way =)

When I started to analyze Lewis' arguments, I realized that sometimes a great writer like him can still be disjointed and unclear. I have to admit his writing, especially ones engaging with philosophy and theology are by no means easy to read.
