Architecture and Design in Europe and America, 1750-2000 is an unprecedented teaching anthology that surveys the history of European and American architecture and design using both historical and contemporary sources.

Brings together the best scholarship on the subject, creating a new canon for teaching purposes by introducing a thematic approach.

Covers three major periods, from 1750-1830, from 1830-1910, and from 1910-2000, with substantial introductions by the editors.

Pairs primary documents with well-known historiographical essays - along with some key but under-represented works.
