This book constitutes the refereed proceedings of the 14th Artificial Intelligence Conference sponsored by the Canadian Society for Computational Studies of Intelligence, AI 2001, held in Ottawa, Canada, in June 2001.

The 24 revised full papers presented together with 14 posters were carefully reviewed and selected from around 70 submissions. Among the topics addressed are learning, data mining, searching, multi-agent systems, automated deduction, computational linguistics, constraint programming, agent learning, planning, classifier systems, heuristics, logic programming, and case-based reasoning.
