Publishing phenomenon Marian Keyes is back again with her new novel *Anybody Out There?*, a touching and funny account of Anna Walsh and her journey from her parents' "Good Front Room" to the resumption of her life in New York where she was living with her gorgeous husband Aidan and had "The Best Job In The World". However, back in Manhattan Aidan seems to have vanished, but Anna seems him everywhere – walking down the street and passing by in a bus – so why won't he return her calls?

Anybody Out There? tells the story of Dubliner Anna, the fourth of five Walsh sisters, the family readers have come to know and love in *Watermelon*, *Rachel's Holiday* and *Angels*. We are also introduced to the life of the other Walsh sister Helen, whose job as a private investigator sees her hiding in bushes and getting caught up in the Dublin criminal underworld – with hilarious consequences!

Marian Keyes outsold all British or Irish authors last year, a testament to the popularity of her writing style. Marian's new novel *Anybody Out There?* is part-suspense novel, part-comedy and part-tragedy, but fully enthralling! --This text refers to the Hardcover edition.
