Dorling Kindersley's Eyewitness city guides bill themselves as the guides that show you what others only tell you, and indeed, spectacular illustrations are one of their strongest points. Every page of an Eyewitness guide is filled with beautiful colour photographs, maps, drawings and diagrams that bring popular tourist destinations to life. Each guide colour-codes the city's districts or neighbourhoods, making it easy for readers to know at a glance just where they are in the book--and where they want to go. Eyewitness Paris is typical of the series: a brief history of the city is followed by Paris at a Glance featuring the best museums, churches and parks; Paris Through the Year, a description of the seasons; and A River View of Paris, which takes the reader on a tour along the Seine. After this introductory section, Eyewitness Paris tackles the city of lights district by district, starting with 'le de la Cit' and ending with Montmartre. At the back of the book is a lengthy section called Travellers' Needs which includes extensive information about restaurants, hotels, shopping, entertainment and special activities for children. The Survival Guide gives practical information about

getting into and out of Paris, banking and postal services, safety, transportation and more. One of the best things about the Eyewitness series are the guided walks for each city. In Paris you have a choice of five 90-minute walks: around Parc Monçeau, along the Canal St-Martin, around the Île St-Louis, in Auteuil or in Montmartre--the directions for each are clear, the sites well-worth seeing and each provides you with the best possible way of getting to know the city. Don't be deceived by Eyewitness Paris's picture-heavy format--this little picture book packs a lot of information.

The guides that show you what others only tell you! It features: suggested walks and four one-day 'Great Day' itineraries to ensure you make the most of your trip; together with clear maps, extensive hotel and restaurant listings of all price levels; from the historic splendour of Versailles to the markets of Montmartre explore the Parisian capital with the unique 3D models and cutaways; and tips on the funkiest bars and most romantic restaurants will ensure you have a bon time in the city of love whatever your intentions!
