onedotzero is a cross-media production company that runs an acclaimed international network of events. The onedotzero festival has become a global phenomenon, reaching over 60 cities worldwide and thousands of people. In Screen International's 25th anniversary issue, onedotzero was named as one of the top ten visionaries of the UK film industry alongside Ridley Scott and Lynne Ramsey.

With its pioneering vision, onedotzero champions new forms of moving image, and this book celebrates the next generation of creators who are accelerating the medium into the 21st century, following the success of the first Motion Blur. It features 27 international filmmakers who are exploring the evolving possibilities of motion graphics, broadcast design, digital film effects, and animation. Their work is illustrated by screen grabs, storyboards, and sketches, and the groundbreaking nature of their work is highlighted in exclusive interviews and short texts accompanying every production.
