出版时间:2006-10-27

装帧:Paperback

isbn:9780262640640

This comprehensive overview of the modern Chinese economy by a noted expert on China's economic development offers a quality and breadth of coverage not found in any other English-language text. In *The Chinese Economy*, Barry Naughton provides both an engaging, broadly focused introduction to China's economy since 1949 and original insights based on his own extensive research. The book will be an essential resource for students, teachers, scholars, business people, and policymakers. It is suitable for classroom use for undergraduate or graduate courses. After presenting background material on the pre-1949 economy and the industrialization, reform, and market transition that have taken place since, the book examines different aspects of the modern Chinese economy. It analyzes patterns of growth and development, including population growth and the one-child family policy; the rural economy, including agriculture and rural industrialization; industrial and technological development in urban areas; international trade and foreign investment; macroeconomic trends and cycles and the financial system; and the largely unaddressed problems of environmental quality and the sustainability of growth. The text is notable also for placing China's economy in interesting comparative contexts, discussing it in relation to other transitional or developing economies and to such advanced industrial countries as the United States and Japan. It provides both a broad

historical and macro perspective as well as a focused examination of the actual workings of China's complex and dynamic economic development. Interest in the Chinese economy will only grow as China becomes an increasingly important player on the world's stage. This book will be the standard reference for understanding and teaching about the next economic superpower.

评论

严谨，中规中矩，2006年为止谈及的经济改革事件都梳理了一遍。（顺便相当于用英语学了一遍高中中国地理）

写给米国人做教材用的。

教材

啰嗦的教材，背景倒是讲得挺清楚，不过只用它上课真成流水帐了。

比较纯粹的教科书。。

有个数据从这里面找到的...教授很赞呐 看了一些hoover出的短章节 写的还挺逗的..

take the fuck of this:)

找到一本无语法错误且优美简洁的中国经济学书已是奇迹

有时，最牛的教授也会出最弱的书，只因为名气大了就想出点普及教材。。。

有一种书，叫别的国家的教科书~

广度和深度以及时效性都无可指摘。

两年前助教课的参考书，文笔一流。

中国经济教科书

教科书式清晰

当时读着挺痛苦，不过之后觉得收获颇丰~

text book, easy to read.

花了我三百大洋啊！

写给国外学生和研究员的中国经济ABC而已

Comprehensive and thorough textbook.

Kindle上读完的第二本书。看外国人写中国经济的教科书，最好的一点是，终于不再先验地假定某些“常识”你都知道了。他愿意从最基本的一点点写起，而不是中国人写中国经济，从来不触及那些常识部分。所以通过这本书，反而让我对中国经济有了更加全面的认识。

书评

卢卡斯曾经说过：“一旦一个人开始思考经济增长问题，他就很难再考虑其他任何问题了。”中国——作为当前世界上二元经济的典型代表，无论是追溯历史还是注目于近三十年的改革开放进程，无论是来分析其独特的经济制度还是那与众不同的对外经济政策，其经济增长的历程可谓...

Barry Naughton's book is a standard text book for students of Chinese economy. This book is well organized, clearly written, and therefore easy to read. The time range is from pre-Mao period to contemporary. Although there is no strong central argument, thi...

巴里·诺顿教授的这本著作，对中国经济发展趋势做出了全面而不乏深刻见解的解读，为理解这些问题提供了自己的独特视角和见解。尤其是从整个中国历史的角度出发，可谓历史经济学的典范。在通常人的眼里，中国经济是从1978年，最多是从1949年才能算起；然而以革命史、政治史等逻...
