The totally restructured SAT college entrance exam that became effective in 2005 includes an entirely new and very important Writing Test, which consists of two main parts. First is a 25-minute period during which students must write an essay on a given topic. Later, students must answer multiple-choice questions that test their skill in correcting poorly-written sentences, finding mistakes in grammar and usage, and correcting mistakes in the first-draft version of a student essay. This manual

familiarizes students with all aspects of the SAT Writing Test and presents review chapters and questions with answers that are designed to hone test-takers' skills. Also included is a helpful overview of the Writing Test and details on how student essays are scored. This manual presents five writing tests. The first introduces students to the test's format and the following four are similar to the actual SAT writing test in length and question types. All tests have answers and explanations, and come with instructions on how students can convert their practice test score to the familiar SAT scale of 200-800.
