出版者:University Of Chicago Press

出版时间:1986-10-15

装帧:Paperback

isbn:9780226526232

Merton Miller, winner of the 1990 Noble Prize for Economics, is the Robert R. McCormick Distinguished Service Professor in the Graduate School of Business at the University of Chicago.

作者介绍:

"Miller and Upton is by far the most cited macroeconomics text in front line academic research journals over the last ten years. It has become a contemporary classic."—Roger C. Kormendi, University of Michigan

"The most innovative approach to introducing macroeconomics that I have seen. . . . A 'classic' in the sense that every serious student of macroeconomics is likely to want it in his or her library."—John P. Gould, University of Chicago

"The task the authors set out to perform is ambitious: to write a macroeconomics textbook structured around a neoclassical growth model. And in this task they have succeeded."—Clifford W. Smith, Jr., Journal of Finance

"This is a superb book. As a vehicle for teaching economics I have to place it right behind Henderson and Quant (Microeconomics) and Dorfman, Samuelson, and Solow (Linear Programming). Moreover, it is an exciting book both to read and to think about. . . . It is not just that these authors have something to say, but their way of saying it is generally superior."—F. E. Banks, *Kyklos*
